Health and Safety Policy Statement Pol 02

INNOGISTIC SOFTWARE PLC will:

Aim to develop a positive Health & Safety culture throughout 2009 that is led by senior management.

Provide sufficient resources to meet the requirements of current Health and Safety legislation and aim to achieve the standards of 'Good practice' applicable with our activities.

Ensure that responsibilities for Health and Safety are allocated, understood, monitored and fulfilled.

Actively promote an open attitude to Health and Safety issues, encouraging staff to identify and report hazards so that we can all contribute to creating and maintaining a safe working environment.

Communicate and consult with our staff on all issues affecting their Health and Safety.

Provide adequate training for our staff to enable them to work safely and effectively, and to ensure they are competent in the work that they carry out.

Carry out and regularly review risk assessments to identify hazards and existing control measures. We will prioritise, plan and complete any corrective actions required to reduce risk to an acceptable level.

Maintain our premises and work equipment to a standard that ensures that risks are effectively managed.

Where appropriate, co-operate with other organisations in the premises to ensure that they are aware of any risks to their staff and other people posed by our activities, that we are aware of any risks to our staff from their activities, and that we comply with the relevant requirements of fire legislation.

It is the duty of all of us when at work:

- To take reasonable care of our own safety
- To take reasonable care of the safety of others who may be affected by what we do or fail to do
- To co-operate so that we can all comply with our legal duties
- To ensure we do not interfere with or misuse anything provided in the interests of Health and Safety

Signed 

Dave Roberts, Managing Director

Date: 3 April 2009
