

CFRMIS Mobile™

Market leading mobile fire safety solution

CFRMIS Mobile, the market leading mobile fire safety solution from Innogistic, makes mobile working a reality. Using CFRMIS Mobile, fire safety officers and operational crews can download fire safety jobs to tablet PC's or PDA's, complete the necessary forms at the point of entry, and synchronise data back with the central fire safety database. CFRMIS Mobile eliminates the need for paper forms, avoids data error, and makes flexible working a reality.

What is CFRMIS Mobile™?

With the ever increasing emphasis on prevention and protection, delivering efficiency improvements in fire safety activity is key to the modernisation of fire and rescue services across the UK. CFRMIS Mobile is designed to help fire and rescue services maximise the efficiency of their fire safety activities, by delivering a fully electronic solution for mobile working. Intended for both Technical and Community Fire Safety activities, CFRMIS Mobile, allows Fire Safety Audits, Home Fire Risk Assessments, and other fire safety jobs to be downloaded to tablet PC's and PDA's, completed electronically, and synchronised back to a central fire safety database. Fully customisable, CFRMIS mobile can be used for any data collection purposes with the minimum of effort

CFRMIS Mobile on a tablet

What makes CFRMIS Mobile™ different?

CFRMIS Mobile is designed for both Technical and Community fire safety jobs on PDA's and Tablet PC's. Unlike other mobile solutions, CFRMIS Mobile works directly out of the box enabling key processes such as Fire Safety Audits, and Home Fire Risk Assessments to be completed electronically with minimum set up. CFRMIS Mobile allows jobs to be completed even when a mobile connection is unavailable, and synchronised when a connection can be re-established, either via GPRS, 3G or over a Local Area Network. CFRMIS Mobile may be easily customised allowing new forms or questionnaires to be developed without requiring specialist IT or programming skills. In short, CFRMIS Mobile is the only solution in the market which makes Mobile Working a reality, which is why ten fire and rescue services across the UK are already using CFRMIS Mobile.

Key Benefits

- Direct electronic capture
- Personalised questionnaires
- Low cost hardware
- Maximum efficiencies delivered
- Work with both PDA's and Tablets
- Easy synchronisation
